Subject: CrR4.11

Dear Supreme Court Committee:

I write in support of proposed rule Cr4.11 in its current format. Accurate preservation of interviews only enhances the administration of justice for all parties. The court's ability to issue protective orders if necessary, strikes the right balance and protects the concerns of victims or witnesses. I echo the comments of Judges Armstrong and Kessler from the King County Superior Court and urge adoption of the rule as proposed.

Thank you in advance.
Mary Yu
